

All-purpose rinse aid

B 100 N

Neutral highly concentrated rinse aid for all areas of application

AREA OF APPLICATION:

- Suitable for use in commercial dishwashers.
- Suitable for dishes made of glass, porcelain, plastic, stain-less steel, aluminium, silver as well as cutlery and utensils.

For perfect cleaning results, the product is recommended for use in the Winterhalter System in combination with the corresponding warewasher, detergent and water treatment.

DOSAGE:

With automatic dosing equipment, depending on the material of the dishes and the water quality. At the new UC the basic dosing adjustment can be set for a concerted dosing very easy at the chemical database. This detergent belongs to the detergent group RA01.

To get a perfect cleaning result, the detergent dosing should be set by the Winterhalter customer service.

Water quality	Dosage in ml/l	°dH	[µS/cm]	ppm CaCO ₃
Osmosis	0.05–0.09	0–3	0–90	0–53
Soft	0.10–0.18	4–8	91–240	54–142
Medium	0.19–0.29	9–14	241–420	143–249
Hard	0.30–0.50	> 14	> 420	> 249

PRODUCT ADVANTAGES:

- Universal, highly concentrated
- Excellent dish wetting
- Very good draining
- Brilliant shine
- Ensures beer foam stability

INGREDIENTS:

Non-ionic surfactants, organic acids, additives

It contains neither chlorine nor phosphates. Furthermore Winterhalter products are totally free of NTA and EDTA.

The balanced composition of ingredients ensures optimal washing capacity and is gentle on delicate glasses and decorations.

All-purpose rinse aid

B 100 N

5 l	container
10 l	container
20 l	container
200 kg	barrel

TECHNICAL DATA:

Colour	colourless
Odour	product-specific
pH value	approx. 5.5 (concentrated)
Shelf life	24 months
Storage conditions	cool, dark, frost-free, up to 30 °C
Density	approx. 1.0 g/cm ³

DISPOSAL OF EMPTY PACKAGING:

- Completely emptied packaging is recyclable and can be disposed of by the end user through the DSD (Duales System Deutschland GmbH).
- Information on disposal of product residues can be found in the corresponding material safety data sheet.

IMPORTANT:

- Product is not intended for the general public. For commercial use only!
- Storage and transport permissible only in original packaging in upright position. Do not expose to direct sunlight and protect from freezing.
- B 100 N can be used in conjunction with all customary detergents for commercial warewashers and is suitable for use in the food sector.
- Never mix with other products and do not transfer into other containers, such as bottles, which are not intended for this purpose!

- Colour variations in the product are caused by raw materials and storage, but do not affect quality.
- A filling funnel (60 005 163) for safe and exact filling of the built-in rinse aid container in Winterhalter UC-models is available. To avoid confusion, rinse aid B 100 N may only be filled in containers marked rinse aid.
- The washing parameters should be kept in accordance with the DIN guidelines (DIN 10510 to 10512 and DIN 10522). Information of Working Party of Commercial Dishwashing should be kept in mind. In context refer to: www.akggs.de
- To support the self-cleaning programme of the dishwasher, the Winterhalter A 15 MC Cleaning tab is recommended.
- To ensure that the warewasher functions are durable and reliable, all filters should be cleaned at end of operation after the self-cleaning programme has ended. Leave the machine slightly open so the interior can dry and in order to build up corrosion protection.
- For cleaning and maintaining the stainless steel coverings of the warewasher it is recommended to use Winterhalter C 122 Grease solvent and Winterhalter C 162 Stainless steel polish.
- Product's material safety data sheet and technical data sheet are available on www.winterhalter.com
